AWS

Continuously advance AWS certification

1 Version 1

2024 8 August 2024

Strengthen the awareness of water safety and the importance of water resource management among internal and external stakeholders such as employees, suppliers, and communities through multi-dimensional and comprehensive publicity and education activities

We will maintain interaction with stakeholders in an open and transparent manner, and regularly disclose our water management achievements, including our goals, commitments, performance and progress, on the Company's official website, sustainability reports, periodic reports, and other channels

https://www.luxshare-ict.com/sustainability.html
